Genostim GS-6® fights progressive aging and disease by using a “cell-by-cell” recovery process. The natural peptide complex and bio regulators in Genostim GS-6® formula are quickly and easily assimilated and transported through the bloodstream to their specific receptor sites. This supports real anti-aging by stimulation of hormone balance.

Aging may be inevitable, but the rate of aging is not. Our bodies age and deteriorate all the time due to cellular decay. Add in our toxic environment, stress, poor food choice and quality and cellular breakdown is accelerated. GENOSTIM GS-6® supports the body’s own natural healing process by helping your endocrine system work at more youthful level using our 100% natural, Isotide™ peptide formula. GENOSTIM’s exclusive formulation supports accelerated healing at the cellular level within these glands to help your body normalize your hormonal levels and better support cellular recovery.

GENOSTIM GS-6® is safe for everyone wanting to slow the aging process naturally. Our customers are adult men and women who frequently report benefits such as:

- Increased Bone Density
- Increased Controlled Cholesterol Levels
- Increased Energy and Endurance
- Increased Muscle Strength and Size
- Increased Skin Elasticity and Resilience
- Enriched Sleep
- Faster Hair Growth
- Joint Pain Relief
- Improved Emotional Stability
- Improved Memory and Mental Alertness

Genostim GS-6® is a new science in dietary supplements with 18 amino acids and 21 naturally occurring growth factors. This exclusive all natural peptide is designed for hormonal support for cellular rejuvenation, vitality and longevity. Genostim GS-6® offers numerous supportive properties and is formulated to address the issues causing you to become less active and age poorly.
