

GENOSTIM[®] HDP[™]

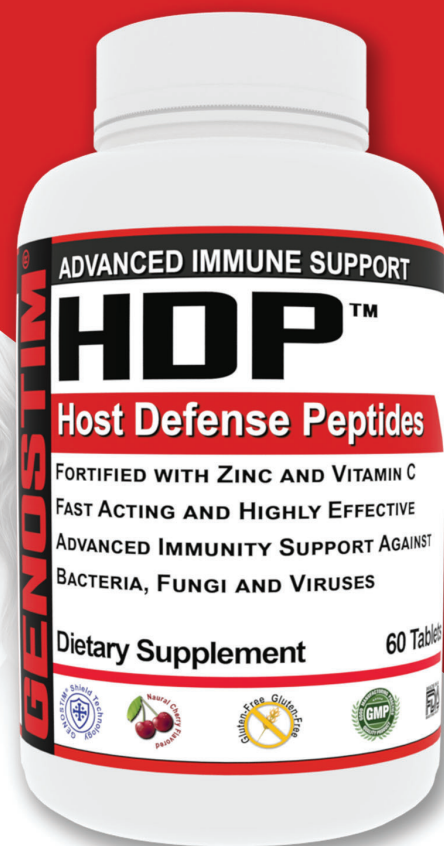

Genostim[®] Host Defense Peptides (HDP) with Zinc and Vitamin C naturally boost your immune system by signaling the body to create optimal levels of antibodies to ward off foreign fungal, viral and bacterial infections.

Host Defense Peptides or 'antimicrobial peptides' are potent, broad spectrum, natural antibiotics that have demonstrated their ability to kill bacteria, enveloped viruses and fungi. Unlike most conventional antibiotics, Host Defense Peptides can destabilize harmful biological membranes and increase your bodies immunity. Each Genostim[®] HDP tablet has 30mg of Hexatide Peptides along with 7.5mg of Zinc and 60mg of Vitamin C to give you the most well rounded immune boost possible.

Genostim HDP is:

- All natural
- Fast acting & highly effective
- Great tasting
- Safe for the entire family
- Daily defense against disease by boosting your Viral Shield

Serving Size – 1 tablet twice daily
Servings Per Container – 60
MADE IN THE USA

Usage Directions

Genostim[®] Host Defense Peptides (HDP) should be taken twice daily. Once in the morning and once in the afternoon/evening or at least 8 hours apart for best results.
