for Life**®

The Fountain Of Youth For Pets

The Gift for Life® is the only human grade, fast acting, highly effective pet supplement recommended by veterinarians for dogs, cats and horses for hip & joint pain relief, restoration of youthful energy and hormonal balance to help pets live a longer, healthier and happier life!

FAST ACTING RESULTS

Our supplements were designed with your pet in mind using only the highest-quality ingredients for fast-acting, effective results. Taken twice daily, you're treating your pet to increased cellular rejuvenation, vitality, and longevity for all breeds! Our goal is to fight against progressive aging and disease using vital peptide nutrients critical to maximizing your pet's life span.

OUR UNIQUE FORMULA

Our effective "cell-by-cell" recovery process uses Natural Growth Factors and Peptides that are easily assimilated and transported through the bloodstream to their specific cellular receptor sites, amplifying the response of these cells. This process stimulates the hormonal balance for real-anti-aging results, life-changing hip and joint relief, and youthful energy.

OUR GUARANTEE

Our goal is to bring your pet youthful energy, mobility, and longevity-naturally. Our unique canine chews immediately begin cellular rejuvenation using TGF-B, TNF-A, TNF-B, CTGF, EGF, NGF, and FGF peptides. In simpler terms, our natural occurring peptide group promotes healing, cellular responsiveness, collagen accumulation, and skin tissue growth. We stand behind our product and are confident in the results you'll see. If you are not satisfied, we'll give you a 30-day, money-back guarantee!

WE TAKE NATURAL SERIOUSLY

Our products were professionally formulated in the USA in a FDA registered facility to bring you the most advanced pet supplement in the world! Unlike other brands, we chose to avoid the use of toxic vitamins and minerals and instead use our unique Isotide technology that helps stimulate the division of mature cells and significantly helps to decrease the mortality of older cells leading to a better quality of life.

Give Your Best Friend A Long And Healthy Life Today!
